---

---

---

---

Type of Development:

\_\_\_\_\_ Subdivision

\_\_\_\_\_ Mobile Home Park or Subdivision Mobile Home

\_\_\_\_\_ Residential Subdivision

\_\_\_\_\_ Residential Structure

\_\_\_\_\_ Non-residential Structure

\_\_\_\_\_ Alteration or Relocation of Waterway or Watercourse

\_\_\_\_\_ Non-structural activity (filling, dredging, mining, grading, paving, excavation, etc.)

Briefly describe the development (If additional space is needed, attach to form):

---

---

---

---

Development plans must be submitted to the Van Buren Floodplain Administrator for review and approval. The plans must be drawn to scale and submitted in duplicate. The plans must show the location, dimensions and elevation of existing and proposed structures, proposed landform alterations, and their locations relative to areas of special flood hazard.

The Base Flood Elevation at the development site is \_\_\_\_\_ above MSL (mean sea level)

\* The lowest floor (including Basement) of proposed structure will be at an elevation of \_\_\_\_\_ above MSL. (Elevation Certificate required upon completion and before final inspection.)

\* The elevation of flood-proofing of the proposed structure will be at an elevation of \_\_\_\_\_ above MSL. Attach drawings and specifications. (Flood-proofing Certificate required upon completion of structure and before final inspection)

Is the proposed building and/or development site in a FLOODWAY?

YES \_\_\_\_\_ NO \_\_\_\_\_

If YES, a registered professional engineer must provide to the City of Van Buren Floodplain Administrator a "Certificate of No Increase in the BFE (base flood elevation) before the project may proceed. Additionally, if the approved development is located within or near a FLOODWAY, a registered land surveyor must stake the FLOODWAY BOUNDARY prior to development.

-----  
All activity within the floodplain shall comply with local, state and federal floodplain management regulations.
